

Blue Cross Health™

A PLAN THAT'S RIGHT FOR YOU

Complete Health Personal Health Plan

FLEXIBLE. PERSONAL. AFFORDABLE.

Available to residents in Ontario and Atlantic Canada

Mix and Match Benefits

Blue Cross Health Complete Health is a flexible plan that allows you to choose the benefits that meet your needs and budget. Your plan can also change as you go through life's stages. Start by picking one of our three Health modules and then any of the other modules you want.

Online Doctors

Blue Cross Health Complete Health provides instant access to Online Doctors from the comfort of your home. If you don't have time to see your doctor, or don't have a family doctor or want a more convenient alternative to visiting a clinic, you will now have secure access to text, audio or video chat with a doctor on your computer or mobile device. Online Doctors covers three general practitioner visits a year, is available Monday to Friday 7 a.m. to midnight Eastern Time and includes digital prescriptions with free delivery or pickup.

Your health and wellness is important to us

Blue Cross Health Complete Health includes a full wellness program. inConfidence is a confidential assistance program offering one-on-one counselling and support 24/7 over the phone for you and your eligible dependents. We also offer a well-being web resource to help support you with work, life, health, family, or money.

The best coverage for health practitioners

We offer more types of health practitioners to help you stay on track. Whether it's coverage for a Dietician, Occupational Therapist, Audiologist or Massage Therapist, we have you covered. We also offer coverage for Psychologists, Social Workers or Clinical Counsellors. In further support of your mental health, our plan includes internet-based Cognitive Behavioural Therapy, which is an approach to psychotherapy that helps in developing coping strategies to address negativity and anxiety.

No overall maximums

We do not have an overall maximum on prescription drugs. No one can predict the future and if you do need expensive medication, we want to be there for you. Also, many of our other benefits do not have overall maximums. With our extensive dental coverage, the Essential and Enhanced modules do not have a maximum on fillings, extractions and root canals.

Did you know?

- Without health insurance, you are accepting the financial risk of expensive medical treatments if you get sick.
- It's much cheaper and easier to get personal health insurance when you're healthy.
- When your children outgrow your plan, they can get their own plan without a medical exam.
